

ENHANCED CAT 5 UTP,FTP,STP CABLES

ENHANCED CATEGORY 5 UTP

The optimum performance of your entire network depends on cables and hardware connecting devices. This our category 5e cable rated for 100 Mbps data transmission is one we strongly recommended for current implementations or future installations of your new networks. With our standard meets TIA/EIA-568A category 5e solid cable on ETL verified, UL listed and CSA standard, you will get really optimum performance on your networks.

- Impedance 100 Ω +/- 15%
- Mutual capacitance max. 17.1 nf/1000ft
- DC resistance max. 28.6 ohm/1000ft.
- Conductor 24 AWG 4 pairs
- Insulation Polyethelene
- Jacket PVC
- Standard UL, CSA listed and ETL verified
- Application 155 Mbps ATM/350 MHz

ENHANCED CATEGORY 5 FTP, STP

Some applications in your network need to protect against EMI/RFI from the environment. Our FTP overall foiled additionally will contribute to the optimization of the performance of the whole system.

ENHANCED CAT.5 FLEXIBLE UTP

Some part of your network need flexibility by means of jumper or patch cord in cross connection or in communication closets and some used from data faceplate to workstation in working area. To ensure on Category 5e performance we offer you the flexible UTP on category 5e standard with TIA/EIA-568A ETL verified. Our cable now available in 7 brilliant colors to make easy identified in network installations.

Type	Conductor	No.Of Pairs	Nominal OD.(mm.)	Jacket Material	Packing
UTPCAT5E	Solid	4	5.3	PVC	1000 ft/box
UTPCAT5E-LSZH	Solid	4	5.3	LS0H	1000 ft/box
UTPFLEX5E	Stranded	4	5.4	PVC	1000 ft/box
STPCAT5E	Solid	4	5.5	PVC	1000 ft/box
FTPCAT5E	Stranded	4	5.6	PVC	1000 ft/box
